

## **FINANCIAL EXECUTIVES INSTITUTE OF THE PHILIPPINES (FINEX)**

### **FINEX Statement on MECQ**

April 11, 2021

"We are glad that the ECQ has been modified to MECQ as it means that more industries can re-open and more employees can go back to work.

"More importantly, we hope that the relaxation is a portent of things to come. But to make it effective, the government must step up in the area of data management, contact tracing, vaccine procurement and logistics, quarantine and hospital facilities. Our government must realize that time is of the essence.

"We reiterate that lockdown should not be the primary tool to address the pandemic. Continued lockdown will aggravate the damage to the economy and cause continued pain and suffering to our people."

ATTY. FRANCISCO ED. LIM  
FINEX President
